

## FOR YOU I WOULD

(T: K. Scholz)

Never give more than you get Never think you could Never lose your head because the moment feels so good For you I would

Never give away your hand Never feel you should Never act like anything you do is understood For you I would

> Fly away, fly away On that magic jetstream in the air Don't you say you will stay Or we won't be getting anywhere

Never let your caution go Never try to be good Never be that fool again who falls for Hollywood For you I would

> Fly away, fly away On that magic jetstream in the air Don't you say that you'll stay Or we won't be getting anywhere

Never trust a summer kiss Never say you would Never give away your heart for better, worse and good For you I would

For you I would For you I would For you I would For you I would
